

# Achmad Hilmi Bukhari

Computer Vision · IoT · Robotics · Network & Cyber Security
Bogor, Indonesia · +62 896 0161 8849 · hilmibukhari29@gmail.com

## Profile

Passionate about building intelligent systems across computer vision, IoT, and robotics — with deep expertise in networking and cyber security. Active CTF competitor and robotics championship winner.

## Core Skills

**CV & AI**
OpenCV
Python
YOLO
ML

**IoT & Robotics**
Arduino
C++
Embedded
Line Follower

**Network & Cyber**
Nmap
Hashcat
Linux
Firewall
CTF

## Awards

— **1st Winner — Best Tactic**, Indonesian National Robotics Tournament 2024

— **2nd Winner — Place Best Point**, World Robotic For Peace 2023 (Singapore–Malaysia–Thailand)

— **3rd Winner**, The 2nd Rotary Youth Super Competition 2K23

## Technical Arsenal

**Languages**: Python, C++, Bash, PowerShell

**Security**: Nmap, Hashcat, John the Ripper, Wireshark

**Networking**: TCP/IP, DNS, HTTP/S, Routing, Firewall, VPN

**Systems**: Linux Hardening, Windows Security, System Monitoring

**Embedded**: Arduino, Sensors & Actuators, Raspberry Pi

**Other**: Web Development, Ethical Hacking, CTF Player

## Experience

### Robotics Team — Tactics & Engineering Lead

Championship-winning strategies & line-follower engineering
2023 – 2024

### Student Organization — Team Leadership

Team management, event operations, mentorship
2022 – Present

### Independent Security Research

CTF competitor — cryptography, hashing & network exploitation
2023 – Present

## Education

### Undergraduate Student

Computer Science & Engineering
Expected graduation 2026
